URGENT RECALL NOTICE

Canned Tuna

Scan to access
notice online

Certain canned tuna products sold at Costco, Trader Joe's, Walmart, and other grocers are being recalled due to botulism risks, per the FDA (Feb. 10, 2025).

A defective pull-tab lid may cause seal failure, leading to contamination with *Clostridium botulinum*, a potentially fatal toxin. Do not consume, even if it looks or smells normal.

Brands

+ Retail Locations

- H-E-B label in Texas
- Trader Joe's label in Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Virginia, Washington D.C., and Wisconsin

What to Do

ASAP

- Check for affected products on the US Food & Drug Administration (FDA) website: tinyurl.com/4f8zf68p – and a complete list of specific use by dates, UPC and can codes
- Contact: support@thaiunionhelp.zendesk.com or 833-374-0171 (M to F, 9 AM–5 PM) EST
- Return for a refund, dispose of, or request a retrieval kit from Tri-Union Seafoods

Botulism

Symptoms

- Muscle weakness, trouble breathing, paralysis
- Seek immediate medical attention if symptoms develop

Stay safe – discard recalled tuna immediately
