

# City of Summit

## FOOD COMPOSTING

## PROGRAM

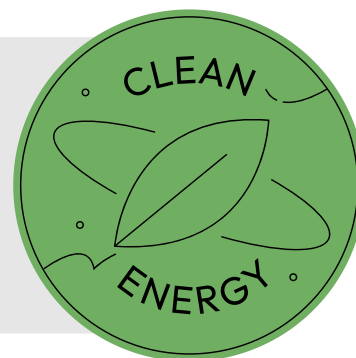

Municipal Transfer Station

40 New Providence Avenue

### WHY SHOULD I COMPOST?

Summit's household garbage is burned in an incinerator and creates some greenhouse gas emissions. Food waste collected in Summit's food composting program goes to a facility that produces energy with a lower carbon footprint than fuel created by burning food waste.

### HOW DO I PARTICIPATE?

#### COLLECT

Collect food scraps throughout the day.

**TIP:** Use a small bag or container placed on a counter or placed in the freezer.

Deposit food scraps in large collection bins on the lower level of the Transfer Station.

#### DROP OFF

#### STORE

**TIP:** When full, empty small container into larger container stored on back porch or in garage.
